Abhijit Yadav heads our Global Investigations + Strategic Intelligence practice in South Asia and is based in Mumbai. He has extensive experience in conducting wide range of investigative assignments including fraud, business intelligence, due diligence and FCPA investigations for a host of multinationals and domestic Indian firms.

Prior to joining Berkeley Research Group, Abhijit was heading the forensic practice for a risk mitigation firm in India, with a remit to lead and grow the compliance, forensics, business intelligence and investigations practice in the region. Abhijit also previously worked at a global consultancy firm, where he played a crucial role in not only setting up its India operations, but also leading its business intelligence and investigative effort in the region.

Prior to joining the corporate sector, Abhijit spent 13 years as an officer in the Indian Navy, most recently serving as Deputy Director – Signal Intelligence. In this role, he headed classified intelligence operations and covert deployments in a tri-service organization. He was hand picked to serve on frontline warships & was deputed for crucial anti piracy operations in the Gulf of Aden, wherein he was instrumental in averting hijack & hostage situations. He also served as a Deputy Director of Information and Electronic Warfare for the Western Naval Command, with responsibility for formulating and implementing strategic initiatives and the re-design of intelligence systems.

Abhijit is a alumnus of India's National Defense Academy & is proficient in English and native in Indian languages, Hindi and Marathi.
