Experience

Brian Cashman is a Managing Director in BRG's Corporate Finance practice and specializes in interim management and restructuring. Mr. Cashman has 25 years of experience and has worked closely with private-equity firms and large global companies and has significant experience in turnaround and restructurings as well as transition and interim management situations as both CFO and CRO including carve-outs situations.

Mr. Cashman has significant experience in interim and permanent financial positions including CFO, Chief Restructuring Officer (CRO), Controller, Financial Planning and Analysis and Treasury in a variety of industries including:

- CRO for \$900 million retailer of fast fashion with over 500 stores
- Interim CFO for \$800 million global women's apparel company during a turnaround process
- Interim CFO for \$150 million global medical device company during a carve-out from J&J
- Interim CFO for \$90 million sporting goods company during a restructuring
- Interim Controller for \$5 billion chemical company during a carve-out from Dow

Mr. Cashman has held interim senior finance roles managing through carve-outs from larger organizations including creating finance organizations from the ground level, establishing policies and procedures, managing transition services agreements and implementing new financial reporting systems. He is experienced in developing and implementing reporting, controls and best practices within global finance organizations with multi-site operations including financial analysis, management reporting, cash forecasting, audit preparation and coordination in both distressed and non-distressed situations.

Mr. Cashman is an expert at analyzing and implementing strategic and operational change, including refinement of business plans and redeployment of capital to address changing industry conditions, and stabilizing and fixing non-core operations through rationalization initiatives. His experience is across a range of industries.

Prior to joining BRG, Mr. Cashman was a Senior Managing Director at FTI Consulting's Corporate Finance/ Restructuring practice. Prior to FTI, Mr. Cashman served in various financial management roles at retailers, software companies and supply chain management company in addition to public accounting at Ernst & Young.
