PROFESSIONAL NARRATIVE

Erick Gunawan is a director based in BRG's Singapore office. He has over fifteen years of experience in forensic consulting, compliance investigations, information governance, eDiscovery, data identification, and collection. He has managed document review for both contentious and non-contentious matters.

Before joining BRG, Mr. Gunawan worked for a specialist consulting firm, where he led the strategic design and implementation of end-to-end forensic technology services. He managed large-scale eDiscovery, information governance, and review services in sectors including finance, life sciences, and energy. He has provided eDiscovery consultancy services regarding financial and economic issues in complex litigation and disputes cases. He also worked for a Big Four professional services firm and in-house with several leading law firms.

Mr. Gunawan is a certified Legal Lean Sigma practitioner and holds various computer forensics accreditations. He is highly proficient in Relativity, Nuix, EnCase, Cellebrite, Brainspace, RapidMiner, Ringtail, and Axcelerate. He is a native speaker of Bahasa Indonesia.
