## SUMMARY

Senior C-Suite Executive, recognized as dynamic and highly-accomplished, with achievements leading strategic growth and service delivery initiatives in President, CMO, COO and earlier medical director and practitioner roles. Created and implemented hospital growth and patient care strategies, leveraging extensive healthcare industry expertise developed in leadership and medical director roles at health systems, Fortune 100 pharmaceutical and insurance companies.

Participated in and facilitated senior-level strategic decision-making in healthcare delivery systems, in both organizational leadership as well as consultative/advisory roles. Led delivery of innovative, high-quality care initiatives via new models of care resulting in exceptional patient experience. Fostered strategic alliances and partnerships within organizations and community stakeholders to collaboratively execute business strategies.

Managed organizations to financial and operational performance targets, leading organic growth and M&A initiatives. Evolved total health management, via CIN and ACO's, and drove new service line delivery successes across multiple clinical domains. Focused on creating optimal healing environments and enhancing flow and throughput to support seamless transitions to the right site of service, thus reducing unnecessary service delivery variation. Leveraged community resources and integration along the continuum of care to provide an exceptional experience while optimizing clinical, quality and financial outcomes. Provided clinical and strategic guidance in the development of contemporary models of care that afford provider organizations the opportunity to thrive in the current environment.
