

Supply Chain

BRG Healthcare's mission is to help solve our clients' most complex challenges with real-world industry expertise, operational best practices, advanced clinical and business strategies, cutting edge analytics, and actionable insights. Our Healthcare Performance Improvement practice works with healthcare providers to identify and implement measurable and sustainable financial, clinical, and operational performance improvements and ensure long-term success.

Supply Chain Organizational Readiness

We help providers identify and reduce supply, drug, and service expenses and improve operational performance using industry-proven methods that incorporate standardization/utilization, clinical alignment, benchmarking, value analysis, and operational improvement.

Data Analytics

Supply and device benchmarking, operational & productivity KPIs.

Supply Operations

Strategic sourcing, procure-to-pay process, inventory & distribution processes

Cost Reduction

Surgical supplies, medical devices, drug pricing & services, inventory management

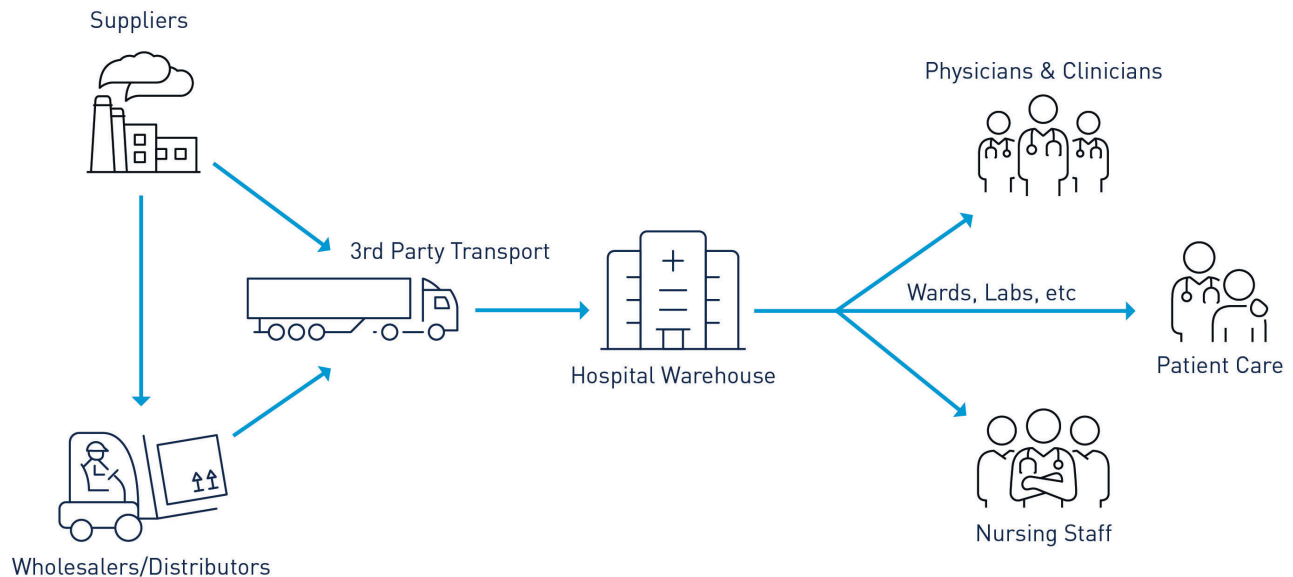

Strategic Value

Optimized clinical utilization, enhanced physician collaboration, streamlined processes, and reduced costs

Supply Chain Strategy and Operations Outcomes

- **Improve Performance and Sustain Changes:** As a knowledgeable and committed partner, BRG works with clients from strategy through execution providing tailored support throughout the supply chain modernization journey.
- **Optimize and Streamline the Supply Chain:** Using industry-proven practices, BRG enhances and automates processes, improves communication, and optimizes purchasing, strategic sourcing, distribution, and inventory management. By reducing duplicate tasks and rework, BRG helps organizations gain insights and efficiencies. Additionally, BRG collaborates with staff on change management initiatives to ensure smooth transitions and sustain best practices, enabling organizations to achieve their goals while maintaining high standards of efficiency and effectiveness.
- **Analytics and System Enhancements:** BRG's best-in-class methodologies and analytics platform enable providers to leverage their enterprise resource planning systems and performance improvement analytics. This helps sustain top-tier services and ensures continuous operational excellence.

BRG collaborates with healthcare providers to ensure comprehensive support for all hospital supply chain stakeholders. This includes working closely with manufacturers, distributors and group purchasing organizations to streamline procurement and logistics, as well as engaging with physicians, clinical staff, nursing staff and administration to ensure their needs are met efficiently. By fostering strong relationships and clear communication across all levels, BRG helps create a cohesive and responsive supply chain that enhances overall hospital operations and patient care.

“Through our Supply Chain Transformation Initiative, we collaborated with BRG to identify areas of opportunity and implemented sustainable, long-term solutions. This comprehensive effort ensured that Grady is well prepared for our upcoming technology implementations using proven best practices.”

Kevin Gordon
Vice President Supply Chain – Grady Health System
