

COMBINING STRENGTHS TO HELP HEALTHCARE PROVIDERS TAKE ON COMPLEX CHALLENGES

BRG's vision is to transform healthcare supply chain management by leveraging automation and innovative technology solutions to streamline processes, reduce waste, and give staff more time for value-added activities, ultimately improving patient outcomes, satisfaction, and cost and quality of care.

SERVICES

BUSINESS PROCESS INNOVATION

Redesign workflows and processes to create efficiencies and improve quality

ERP ENHANCEMENTS

Leverage existing enterprise resource planning (ERP) platforms and optimize them by creating system-specific solutions

WORKFLOW AUTOMATION

Identify, craft, and manage implementation of robotic process automation (RPA) workflows to help automate repetitive and mundane tasks

QUALITY IMPROVEMENTS

Assess current data management process and implement data-cleansing solutions to improve visibility, accuracy, and internal operational processes

COST REDUCTIONS

Optimize ERPs, implement workflows, and improve data quality to realign staffing responsibilities, reduce waste, and align across departments

KEY INITIATIVES

BUSINESS PROCESS INNOVATION

- Procurement redesign
- Inventory management redesign
- Materials Management Information Systems (MMIS) staffing redesign

ERP ENHANCEMENTS

- Detailed delivery to data field for receiving staff efficiencies
- Classify product types
- Increase no-touch purchase orders (POs)

WORKFLOW AUTOMATION

- Electronic Data Interchange (EDI) 832 pricing automation flow
- PO and invoice approval flow
- Receiving Automation
- Other custom-tailored solutions

QUALITY IMPROVEMENTS

- Clean and accurate data (item and vendor master)
- Reduce manual/user errors
- Product expiration

COST REDUCTIONS

- Price and contract alignment
- Product utilization and wastage
- Inventory optimization
- Supply Chain staff efficiencies

About BRG Healthcare Performance Improvement

BRG Healthcare's mission is to help solve our clients' most complex challenges with real-world industry expertise, advanced analytics, and actionable insights. We work with healthcare payers, providers, life sciences manufacturers, investors, and legal professionals to help them from strategy through execution. We're driven to help our clients address challenges and seize opportunities across the healthcare sector.
