SUMMARY

Mr. Teynor has over ten years of varied professional experience. He has assisted in the quantification of economic damages, valuation of businesses and intellectual property (IP), investigation of accounting irregularities or theft, critical review or rebuttal of fairness opinions, and analysis of income for attorneys and their clients in dozens of matters. He has experience across industries including financial services, energy, manufacturing, real estate and construction, technology, and cannabis.

Prior to joining BRG, Mr. Teynor was a manager at a leading accounting firm, where he worked with national, regional, and boutique law firms on a variety of cases, including those involving complex commercial damages (e.g., lost profits, diminution in value), business and IP valuations, merger and acquisition or shareholder/partner disputes, business income and bank statement analyses, asset tracing, and securities class actions.

SELECT EXPERIENCE

- (1) Focus on legal and corporate markets including litigation support and valuation analyses across multiple industries including financial services, energy, manufacturing, real estate and construction, and technology.
- (2) Assisted on a variety of other cases including IPO readiness, insurance representation and warranty policy claims as well as forensic investigations.
- (3) Develop, analyze, and summarize various financial models tailored to client needs.
