The BRG Team

BRG is recognized as a “best place to work” and a top consulting firm. Our flat structure and integrated teams mean that every individual—from summer and entry-level associates to managers—works directly with our hands-on, industry-leading experts. Our consultants have a direct impact on client engagements from the beginning of their careers. As a result, they can develop skills, gain experiences, and build relationships in the field of professional services from day one. Drawing from our diverse talent and perspectives, we create the space where intelligence works to solve our clients’ toughest challenges.

Opportunities

We offer two entry-level opportunities for undergraduate and master’s students and recent graduates.

Associate

Full-time consulting staff position that is open to recent undergraduate and graduate school candidates. You’ll learn and grow relevant business knowledge, develop practical analytical skills, and gain insights into our diverse service offerings. From day one, you will be a valued team member and will contribute to solving some of the world’s leading issues. The work of an Associate can be either qualitative or quantitative in nature, and projects range from industry and subject-matter research to data collection and preparation of statistical, financial, and other forms of analysis.

Summer Associate

Our Summer Associate Program is for students who have completed their junior year of college or are in a master’s program. The Program runs for eight weeks through the summer season. You will work as a consulting staff member and have the opportunity to learn more about the professional services industry, connect with industry leaders, and develop a solid foundation on which to build your career.
