

Hurricane and Typhoon Claims

BRG's Business Insurance Claims practice provides world-class forensic accounting and insurance claim preparation services to policyholders, commercial insurance brokers, and law firms. We prepare credible, professional, and well-documented insurance claims that lead to timely settlements. We have calculated and presented hundreds of large, complex hurricane and typhoon claims around the world.

While our professionals establish loss-accounting procedures, analyze accounting records, and develop detailed claim models, our clients can focus on assessing damage, organizing cleanup efforts, communicating with customers, and restoring their businesses.

Our deep claims and industry experience enables us to provide strategic advice and manage expectations throughout the claims process, and our fees are typically covered by the insurance policy. Our experts have testified in depositions, trials, and arbitrations, served as umpires and appraisers, and facilitated successful settlements at mediations.

We have recovered billions of dollars for clients with hurricane and typhoon claims.
